Dear Mr Mackay

Your comments about the impossibility of coming down to London to pick up the video equipment highlighted a concern which the Trust has felt as well. In an ideal world we would have several sets of equipment and one would certainly be lodged in Scotland. We are doing our best to raise the necessary funds to do this.

In the meantime we are exploring the possibility of sending the equipment up to BBC Aberdeen (Beechgrove Terrace) so that you could collect it from there. Someone there should also be able to go over the operation of the equipment with you. I cannot be sure at this stage that this can be arranged but I thought I should check with you first to see whether this would make the project possible. If it would, could you please let me know when you would like to have the equipment and we can check whether it would be free on the dates you want. We would very much like to be able to help you.

Yours sincerely

Elizabeth Oliver
